

I U P U I  
MATH CLUB TEASER #37

February 12, 2010  
(due February 19, 2010)

SOLUTION

Color the squares in a chequerboard pattern:

To follow the rules, a student in a grey square must move to a desk in a white square, but there are 13 students in grey squares and only 12 desks in white squares, so they cannot all move.

SOLVED BY:

Captain Nemo, The Residues.
